PREPARATION

1. **Charge the motor**
   All motors are tested and fully charged at the factory. Please charge the motor for 6 hours, using the recommended AC charger when needed.
2. **Wake up**
   Put the Battery switch ON (located on the motor head).
3. **Find the P1 & P2 Button:**
   i. P1 is on the motor head.
   ii. **HAND** remote's P2 is under the battery cover.
   iii. **WALL** remote's P2 is on the back.
4. **Activate the remote:** Remove the plastic under the remote battery (as sent from factory).
5. **Set the channel** to be used **on the 15CH Remote**:
   i. Press and hold the + & – button for 5 seconds, you will see 15, and then
   ii. Press + or – to select the channel you'd like to use, then
   iii. press Stop to confirm.

PROGRAMMING

1. **Wake up OR Reset the motor** (to factory default):
   i. Put the Battery switch ON (located on the motor head).
   ii. Press and hold the motor head P1 button for approx. 14 seconds, until there are 4 jogs* and 4 short beeps.
2. **Pair the Remote to the blind's motor** (select the desired channel, or single remote):
   i. Press and hold the motor head P1 for

2 seconds, until the motor activates 1 jog and 1 long beep.
   ii. Press and hold the remote STOP button for 2 seconds (within 10 seconds), until the motor activates 2 jogs and 3 short beeps.
   iii. The motor and remote are now paired.
3. **Check the direction** If it is correct, **Go to STEP 4**. **If not, Change the direction**
   i. Press the remote Up for 1 second.
   ii. Press and hold the remote Up & Down for 2 seconds.
   iii. After 1 jog, the motor's directions are now changed.
      OR
   i. Press and hold the motor head P1 for 10 seconds.
   ii. Until motor activates 3 jogs Release P1, and then there should be 3 short beeps.
   iii. The motor's directions are now changed.
   Check the direction to confirm it has changed.
4. **Set the Limits.**
   Top limit:
   i. Move the blind to the desired upper limit (approximately **100mm** from the top).
   ii. Press and hold the remote Up & Stop buttons for approx. 5 seconds, until the motor activates 2 jogs and 3 short beeps.
   iii. The top limit is now set.
   Bottom limit:
   i. Move the blind to the desired lower limit (approximately **100mm** from the bottom).
   ii. Press and hold the remote Down &

Stop buttons approx. 5 secs, until the motor activates 2 jogs and 3 short beeps.
   iii. The bottom limit is now set.
5. **Set (or delete) the Favourite Position:**
   i. Move the blind to the desired position.
   ii. Press remote P2 for 1 second, the motor activates 1 jog and 1 short beep.
   iii. Press remote STOP for 1 Second, the motor activates 1 jog and 1 short beep.
   iv. Press remote STOP for 1 Second, until the motor activates 2 jogs and 3 short beeps, the favourite position is set.
   • Press remote STOP for 3 Seconds, the blind will move to the favourite position.
   • Repeat steps 2, 3 and 4 above and the motor will activate 1 jog and 1 short beep to delete the favourite position.
6. **Pair New Channels, Remotes or Create A Group Channel** (one motor can store a maximum of 20 channels):
   i. Press P2 on EXISTING remote for 1 second, and the motor will activate 1 jog and 1 short beep.
   ii. Press P2 on EXISTING remote for 1 second again and the motor will activate 1 jog and 1 short beep again.
   iii. Press STOP (OR P2) for 2 seconds on a NEW channel, GROUP channel, or NEW remote.
   iv. Motor will activate 2 jogs and 3 short beeps.
   v. Limits are now copied.

OPERATING ALL THE BLINDS AT ONCE

1. **On the 15 channel remote**, select channel "00".

MODIFYING THE SETTINGS

Adjusting the limits once set:
Adjusting the top limit:
1. Move the blind to the top limit.
2. Press and hold the remote Up & Stop buttons approx. 5 seconds, until the motor activates 1 jog and 1 long beep.
3. Adjust the limit.
4. Press and hold the remote Up & Stop buttons approx. 5 seconds, until the motor activates 2 jogs and 3 short beeps.
5. The setting is confirmed.
Adjusting Bottom limit:
1. Move the blind to the bottom limit.
2. Press and hold the remote Down & Stop buttons approx. 5 seconds, until the motor activates 1 jog and 1 long beep.
3. Adjust the limit.
4. Press and hold the remote Down & Stop buttons approx. 5 seconds, until the motor activates 2 jogs and 3 short beeps.
5. The setting is confirmed.

TO LOCK OR UNLOCK THE COMBINATION FUNCTION FOR REMOTE

1. Press and Hold the STOP button over 20 seconds, until the letter "**L**" or "**U**" is displayed on the screen.

• A **jog** is when the blind moves in a small **up and down movement**.
• Battery Motor Only works with the NEW Model Remote (Factory default is bidirectional Mode 2).
